The main floor features a massive living room filled with natural light from the large windows, including a newly replaced front window. The kitchen and dining area are connected, creating a great space to enjoy time with family and friends, and from there you head directly out to the beautiful enclosed covered deck/sunroom with views you truly won’t want to leave. There is also an additional outdoor deck for BBQing, stairs leading to the beautiful backyard, and a fully organized organic garden area ready for anyone with a green thumb. The lower level offers the 3rd bedroom, office, or flex room depending on what your lifestyle needs may be, along with a walk-in closet and rough-in plumbing for a future third full bathroom. The indoor hot tub room is the perfect place to unwind after a long day and also provides direct access to the backyard space. You’ll also appreciate the large dry storage areas, including storage under the stairs with a cold room that works great for keeping beverages and extras nice and cool — even during the heat of August. This home has been extremely well cared for over the years and

includes some newer windows, tons of storage, workshop options, and a garage with hot and cold running water plus a vacuflo outlet. All 3 bedrooms are spacious and include walk-in closets.
