A one owner custom built home in a location that is hard to beat! This home has been very well loved and meticulously cared for since Day 1. Good sized rooms throughout this great floor plan makes for an abundance of spaces for everyone. The primary bedroom is on the main floor with a lovely ensuite. The Great Room is exactly that ... Great(!) with hardwood floors and lends itself to many options for furniture placement. It's an amazing space. There's also a Sun Room adjacent to the eating area that makes a perfect flex space - you decide! There is a maintenance free tiered deck with access from the Great Room that is lovely and overlooks the amazing back yard and green space beyond the fence. The upper level has two huge bedrooms and a large 4 piece bathroom. Lower level has a massive recreation/games room and den area leading into a large 3 piece bathroom. Many upgrades have been completed with no expense spared. The windows are Pella with blinds in between the panes, updated hot water on demand and furnace, the walk-in bathtub with jets in primary ensuite, Hunter Douglas blinds and the landscaping is also very well done! This property definitely deserves your attention!
