Built in 2016 on a corner lot, it offers over 2,314 sq. ft. plus a fully developed basement, four bedrooms and 3.5 bathrooms. Wood exterior accents, Hardie board siding, wood-accented garage doors, black windows and Gemstone lighting create striking curb appeal. An oversized window brightens the spacious foyer, with a tucked-away half bath and barn doors opening to an office or playroom. The living room impresses with approximately 20-foot ceilings, expansive windows, custom wood detailing, a floating TV console, a 100" electric fireplace and floating shelves. Open to the living and dining areas, the kitchen features white quartz countertops, a large island, an oversized fridge/freezer combination, double wall ovens, a five-burner gas cooktop, stainless steel hood fan, farmhouse sink and dishwasher. Pots-and-pans drawers offer practical storage, while a walk-through pantry connects to the mudroom with built-in lockers and a large seasonal closet. The oversized heated garage measures approximately 27' x 11' and is drywalled and painted, with a sink and abundant storage. A maple railing with glass inserts leads upstairs to three generous bedrooms, a full bathroom and a well-appointed laundry room. A large folding counter, cabinetry and hanging rack make laundry day easier. The ensuite invites relaxation with a freestanding tub, walk-in shower with ceiling-height tile, a bench and body sprays, plus a generous vanity with a makeup area and illuminated mirror.
