Better than new, this 2,170 sq. ft. Copperwood home by Stranville Living Master Builder offers a spacious, thoughtfully designed layout with the deck, fencing, central AC & landscaping already completed. The undeveloped basement provides potential for bedrooms #4 & #5, a second family room and a 3-piece bathroom. The main floor features a beautifully appointed kitchen with ceiling-height Adora cabinetry, quartz countertops, tiled backsplash and a premium Fisher & Paykel appliance package including an integrated fridge & dishwasher, induction cooktop, wall oven and microwave. A large eating bar connects the kitchen to the bright dining and living areas, complete with an electric fireplace and floor-to-ceiling feature wall. A flexible room offers space for a home office, reading room or hobby area, while a mudroom with lockers, built-in desk and 2-piece bath add everyday convenience. Upstairs are three bedrooms, a media room and spacious laundry room. The primary suite features a corner ensuite with freestanding soaker tub, dual vanities and tiled shower, plus an exceptionally large walk-in closet. Additional features include high-efficiency mechanical systems, Low-E windows and spray-foamed rim joists. Close to schools, parks, shopping, restaurants, recreation and the YMCA, this nearly new home offers the benefits of new construction without the wait, added costs or unfinished exterior.
